## CHARGE CLAMP 3

Mobile Holder with Wireless Charger

User Manual

### Product Introduction

Thank you for purchasing our product, Charger Clamp 3—a Mobile Holder with Wireless Charger. It features a high-end quick charge IC. With its luxury and compact design, it is compatible with any mobile phone with Qi standard. It can perfectly sync with Samsung and Qi-enabled devices, allowing for fast charge wireless functionality. This feature saves time effectively and enhances your charging experience.

### Standard Accessories

- 1 x Wireless Charger
- 1 x Type C Cable
- 1 x User Manual

### Connecting to Power

1. Connect the power adapter (not included) to the car's wireless charger.
2. Turn on the adapter switch. The LED light indicator will start glowing automatically.

### Charging your Wireless iPhone, Smart Phone

1. Clean the Dashboard and stick the Charge Clamp 3 to the Dashboard.
2. Connect the Charge Clamp 3 to the car's main power supply via the Type C cable.
3. Once the adapter is connected to a main power supply, and the LED indicator flashes red once, then turns solid red – wireless charging is ready.
4. Place the mobile phone in the center of the charging surface. Once positioned, the RGB LED indicator will illuminate, indicating charging.
5. Check the charging icon displayed on the mobile device screen for the charging status.
6. If the Red indicator light is flashing, it indicates a Foreign Object Detection (FOD) status. In such cases, try removing your mobile phone case.

**Note:** Please remove your device when fully charged.

### Specifications :

- Material : ABS + PC + Acrylic + Silicone + PCBA + Supercapacitor
- Supports phone width : 60-90mm
- Size : 71\*145\*115mm (Holder+Suction)
- Weight : 258.6gm
- Input : DC 9V/1.67A
- Charging Frequency : 110-205KHz
- Charging Efficiency : 79%
- Charging Distance : 3-6mm
- Input Interface : Type-C
- Distribution Length : 1M Type-C Wire

### Attention

1. Please keep the charger away from water or other liquids.
2. If you need to clean the charger, please make sure it is powered off.
3. The operating environment temperature should remain between 1-50°C.
