

CLAMP M

Car Mobile Holder

Mobile Holders for your Car Dashboards & Working Desks

Portronics has once again shown it's committed to safe and easy driving conditions especially when we use mobile phones behind the wheels. With the launch of Clamp M, a best quality car mobile holder suiting every possible car interior, car style and your personal mobile viewing angle experience.

- ✓ You always drive your car while using your smartphone for viewing directions on the Google Maps or talking on the speaker phone. You take huge risks of holding the phone in your hands for these activities.
- ✓ **Clamp M** is a premium Universal mobile Holder with a cradle to hold any smartphone up to 6 inches as it is charged with USB cable from any good car charger.
- ✓ You can telescopically zoom it out 40 mm, rotate it fully, and tilt it sidewards so you get maximum flexibility that any car mobile phone holder can give you in the market today.
- ✓ Simply press the innovative one-click release button given at the backside of Clamp M to ensure easy release of smartphone.
