

KONNECT L

60W Type-C To Type-C Cable

1.2 M Long Durable Cable : The Konnect L is about 1.2 M long and this feature allows for maximum convenience of the user. Not only is the cable length ample it also is durably built which ensures that no matter how roughly its handled no harm is done to it!

60 W PD Quick Charge (For Type C) : Konnect L cable for Type C enabled smartphones has the Quick Charge feature which allows for record time efficient charging. The cable enables you to charge all your Type C enabled devices!

TPE & Nylon Braided Cord : The cable has been designed for optimal results and keeping this in mind it has been built with TPE and has further been nylon braided to ensure longevity and safe upkeep.

Tangle Resistant : Isn't it frustrating when we are in a hurry to charge our devices, and while pulling out the charger find it all entangled up? This is why we came up with this feature that will not only make charging hassle free but also ensure the cable's longevity.

Fast Data Sync : Sync data from two devices with accuracy and ultra speed. The cable allows zero glitches and ensures distortion free exchange of data. You can use the cable to transfer large amounts of data continuously from one device to another!
