ORIA PRO

Mirror LED Light with Adjustable Foldable Stand

User Manual

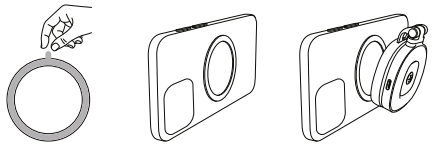

Product Image

1. Type-C charging port; charging parameters 5V/1A,
2. Power/Mode button: long press for 3 seconds to power on, the indicators light up one by one. And long press again for 3 seconds to power off. A short press switches the light color, including three light modes: white light/warm light/cool-warm light.
3. Battery indicator light: indicates the remaining battery after powering on, with a total of three levels. LED flashes while charging.
4. Brightness adjustment knob. When the fill light is on, turning the knob to the right increases brightness, and turning it to the left decreases brightness.
5. Memory function: When the product is powered on again, it retains the light mode used prior to the last power-off.

Instructions

1. For iPhone 12 and later models, the magnetic fill light can be directly attached to the back of the phone. For other models, a magnetic ring needs to be attached to the back cover or phone case.

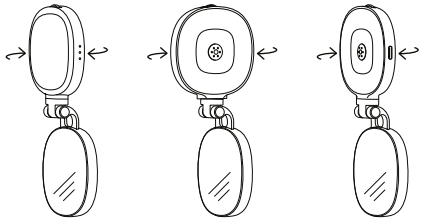

❶ Remove the protective sticker from the magnetic ring.

❷ Attach the magnetic ring to the back cover of the phone or phone case.

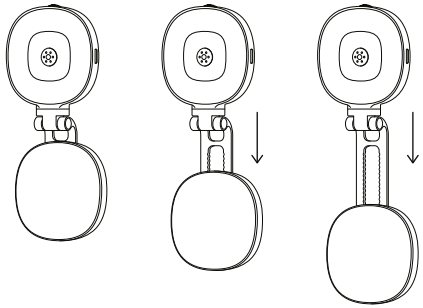

❸ Attach the magnetic fill light to the magnetic ring for use.

2. While using the makeup miror, you can flip the fill light by rotating it 180°.

LED can be flipped 180° according to our convenience.

3. When attached to the phone, the fill light can be extended to provide multi-angle lighting.

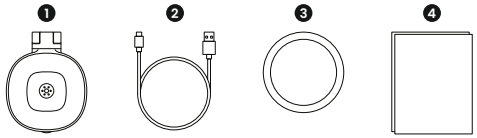

Specifications

Battery	Lithium Polymer 500mAh
Battery Backup	1.5 hours (low brightness)
