Instructions

1. Power ON: Slide the power tonearm stylus switch to the “CD” position. The speaker will power on with a colorful RGB light effect.

2. Using Wireless Function for the First Time:

2.1 Initial Pairing Mode: When turning on the speaker for the first time, you will hear a “beep” sound. This indicates that the speaker is now in pairing mode and ready to connect with a wireless device.

2.2 Connecting with a Mobile Phone:

- Go to your phone's Bluetooth settings.
- Search for available devices.
- Select “Portronics Sound Flow” from the list of available devices to pair.
- Once connected, you will hear a confirmation indicating a successful connection.

3. TWS Mode: When you have two speakers, short press the ⌚ button two times to activate TWS (true wireless stereo) mode, the two speakers will connect to each other.

4. FM Mode: Press and hold the Menu button to switch to FM radio. Connect the charging cable to the product via the type-c port as a radio antenna. The other end does not need to connect to any equipment. Short press the Menu button to begin channel searching (channels should automatically save), then short press ◀◀ ▶▶ to alternate channels.

5. Micro SD Card/USB MODE: Insert the Micro SD card or USB flash drive into the appropriate slot or port. A voice prompt will indicate that the device is reading the audio files automatically and playback will begin. Short press on the buttons ◀◀ ▶▶ to control music playback.

6. Clock Setting

- Short press the button ⌚ to enter the hour and minute setting mode.
- Use the buttons ◀◀ ▶▶ to set the desired hour and minute.
- Short press the button ⌚ to confirm and save the time setting.
- After setting the time, press and hold the ⌚ button repeatedly to select a sleep timer:
 - Long Press once: Display shows L15 (Sleep timer: 15 minutes).
 - Long Press twice: Display shows L30 (Sleep timer: 30 minutes)
 - Long Press three times: Display shows L60 (Sleep timer: 60 minutes)
 - Long Press four times: Display shows OFF (Sleep timer disabled).

7. Alarm Clock Setting/Screen brightness adjustment

- Long press the button ⌚ to adjust the screen brightness.
- Short press the button ⌚ to enter the alarm setting mode.
- Press once to adjust the hour and press again to adjust the minutes.
- Use the buttons ◀◀ ▶▶ to set the desired hour and minutes.
- Short press the button ⌚ again to confirm the time.
- Then use the buttons ◀◀ ▶▶ to turn the alarm ON or OFF (an alarm icon will appear on the screen when it's ON). When the alarm rings, press button ⌚ to stop the alarm.

8. 12/24 Hour system switching

Short press the button ⌚ to enter time setting, then long press the button ⌚ to switch 12 hour or 24 hour show in the digital screen, then short press button ⌚ two times to confirm setting. (Only in 12 time system, the icon AM/PM will show on the digital screen).

11. Wireless charger function: When a phone (with wireless charging capability) is placed in the charging area, the screen will display a charging symbol (white light). The symbol will disappear once the phone is removed from the charging position.

Charging the Speaker

1. Locate the USB-C Charging Port

Find the USB-C port on the back of the speaker.

2. Use the Included USB-C Cable

Plug the of the charging cable into the speaker's charging port.

3. Connect to a Power Source

Use the included Type-C to Type-C cable and connect it to a Type-C power adapter rated 25 W or higher for optimal performance.

4. Power On While Charging

You can use the speaker while it charges. Charging time may vary depending on the power source.

5. Charging Indicator

The speaker's LED indicator will glow red while charging and will turn off once fully charged.

Safety Instructions:

Read the following recommendations before using the product. Following these you will be able to enjoy the product for many years.

- Do not expose the device to liquid, moisture or humidity to avoid the product's internal circuit being affected.
- Don't use abrasive cleaning solvents to clean the device.
- Do not expose the device to extremely high or low temperature as this will shorten the life of electronic devices, and distort certain plastic parts.
- Don't dispose of the device in a fire as it will result in an explosion.
- Don't expose the device to contact with sharp objects as this will cause scratches and damage.
- Do not listen to high volume sound for a prolonged time to avoid hearing damage. Set the volume to a safe level. The louder the volume, the greater the damage.
- Don't attempt to disassemble the device as it may get damaged. If you are not professional. Seek a qualified service professional if it requires repair.
