

Tune Lite

Wireless Car Receiver

Please read the manual carefully before use.
It is recommended that you keep this manual for future reference.

User Manual

Package Contents

- Portronics Tune Lite
- USB A to Type C converter
- User Manual

Works With

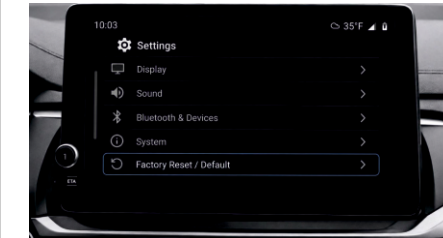

- Cars that support **wired** Android Auto/ CarPlay.
- Cars without any **third-party** software/display, the car must have an **original display**.
- Mobiles with **Android 12** or higher and **iOS 15** or higher.

To check if your car supports wired connectivity:
Connect your mobile device to the car's USB port using a data cable. If a prompt/information appears on the car's display, your car supports wired connectivity. If you're unsure, contact your car manufacturer for confirmation.

NOTE: DO NOT CONNECT THE MOBILE BLUETOOTH TO THE CAR'S STEREO/DISPLAY.

Usage:

1. Start The Car & Reset The Display

2. Plug the Tune Lite in the Data port

3. Car Screen Displays Portronics Tune Lite XXXX

4. Pair your mobile Bluetooth with Portronics Tune Lite XXXX

Once the device gets paired it is ready to use in either Android Auto/ CarPlay.

PROBLEMS? ISSUES? CONFUSED?

Follow the following steps if you face any problem in setting up the device.

Display Reset: Un-Plug the Tune Lite and again reset your Car's display.

UNPAIR CAR FROM ANDROID AUTO & CARPLAY BY THESE FOLLOWING STEPS:

iOS Mobile	Android Mobile
Settings	Settings
↓	↓
General	Connections
↓	↓
CarPlay	Android Auto
↓	↓
My Cars	Vehicle
↓	↓
Select your Car	Select your Car
↓	↓
Forget this Car	Forget

Bluetooth Pairing :

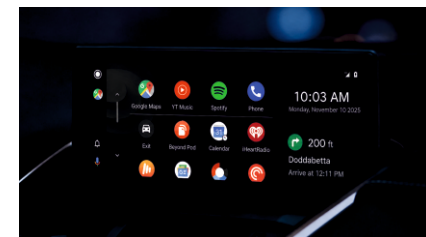

iOS Pairing:

Plug in the Tune Lite, the car display shows CarPlay select this. After this the car screen displays PORTRONICS Tune Lite XXXX, turn on your iPhone's Bluetooth and connect it to the device and wait for 2-3 minutes. CarPlay will launch automatically.

Android Pairing:

Plug in the Tune Lite, the car display shows CarPlay select this. After this the car screen displays PORTRONICS Tune Lite XXXX, turn on your mobile's Bluetooth and connect it to the device and wait for 2-3 minutes. Android Auto will launch automatically."

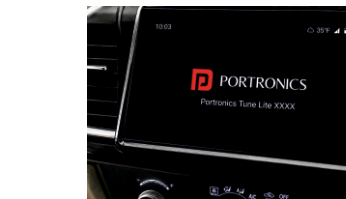

In Some Displays:

The Tune Lite automatically starts up in the CarPlay, as a default function. If your display doesn't support CarPlay, the screen will not display anything. Connect your mobile to the device via Bluetooth, and wait for 2-3 minutes. Android auto will start to function, and gets connected automatically for the future use.

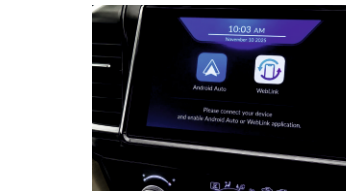

In Weblink Display:

Reset your Weblink display and plug the Tune Lite in the data port. The display shows CarPlay and Weblink icons. Select the CarPlay the display shows PORTRONICS Tune Lite XXXX and pair your mobile Bluetooth with PORTRONICS Tune Lite XXXX.

iOS: If you have an iOS mobile the display will start to function in CarPlay after pairing it with Bluetooth.

Android: If you have an Android mobile, select CarPlay in your display, pair your mobile Bluetooth and wait for 2-3 minutes. And the display starts again and shows Android Auto and Weblink icons. Select Android Auto the display will start to function in that mode.

KINDLY PLEASE ALLOW PERMISSIONS IN BOTH iOS & ANDROID PAIRING

After this initial set-up, the device automatically pairs up with the car for the next use.
