

# MUFFS M

Bluetooth Headphone with Mic. & AUX Port

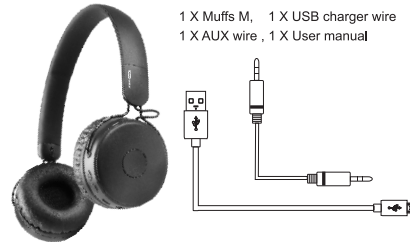

## 1. Introduction

Congratulations, and thank you for choosing the Muffs M wireless headphone. This manual will help you operate the Muffs M wireless headphone, but you should first familiarize yourself with the Bluetooth functionality of your mobile phone or other devices before using the Bluetooth Stereo Headphone.

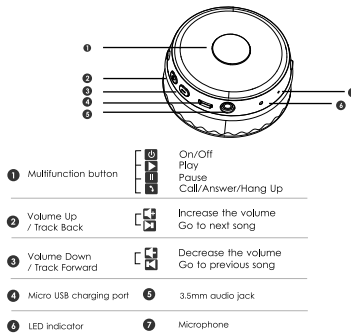

### Safety Rules

1. Please follow the rules depicted in this manual closely to ensure your safety. Before using Muffs M, we would strongly recommend you to read through this user manual.
2. Be more wary of any edges, uneven surfaces, metal parts, accessories and its packaging so as to prevent any possible injury or damage.
3. Do not modify, repair or dismantle Muffs M. Doing so may result in fires, electric shocks, complete breakdown of this wireless music headphone, etc. All of which, are not covered under warranty.
4. Do not use any diluents or volatile liquid to clean the Muffs M.
5. Do not use the Muffs M in a hazardous location.

## 2. Kit Contents

## 3. Connection Diagram

## 4. Instruction for all of the buttons:

### PAIRING

1. Make sure your phone, computer or music device is turned on and within 1 meter of each other.
2. Hold down Multifunction On/Off button (1) for about 3 seconds until LED light starts to flash BLUE and RED quickly.
3. Activate the Bluetooth feature on your phone or device and set it to search for Bluetooth devices (Discoverable).
4. Select 'Muffs M' from the list of found devices.
5. If necessary, enter passcode '0000' to pair and connect the headphones to your device.
6. Once successfully paired, the LED light will flash BLUE once every few seconds.

## PLAYBACK / CONTROLS

1. Press Multifunction button Play/Pause (1) to start and pause audio.
2. Press (button 2) and hold down to skip forward to next track. Press to increase volume.
3. Press (button 3) and hold down to go back to previous track. Press button to decrease volume.

Note: The controls will not function when charging.

### CALLS

1. To answer an incoming call, press the Multifunction Play/Pause (button 1)
2. To end call, press the same button again
3. To decrease or increase the volume during the call, press and hold down button 2 or button 3

### POWER ON

Press and hold the Multifunction button (1) to turn the headphones on. During pairing, red light and blue light flash alternatively. If pairing success, blue light will flash once per 2 seconds.

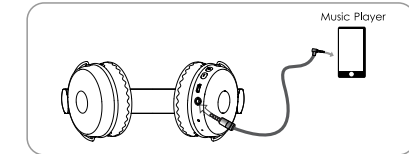

### POWER OFF

Press and hold the Multifunction button (1) to turn the headphones off. The LED indicator will stop flashing when off.

### USING HEADPHONES IN PASSIVE MODE (WIRED)

You can use the headphones as a wired headphone to save battery. Simply connect one end of the 3.5mm cable to the bottom of the ear cushion and the other end to your phone or device.

Note: Inserting an audio cable disables wireless functionality.

## 5.Service and Support

If your device is not performing as it should, please contact Portronics.

### 6.Technical Specification

Bluetooth Version	: 5.0
Drivers	: 40mm
Frequency	: 20Hz - 20KHz
Sensitivity	: 102dB
Range	: 10m (Open Area)
Battery	: 200 mAh Li-polymer battery
Playback Time	: Around 10 Hrs.
Charging Time	: Around 2.5 Hrs.
Standby Time	: Around 200 Hrs.
Product Size	: 170 X 75 X 175mm
Product Weight	: 124g

4. Please do no beat, knock or shock the product.

5. Please make sure you have powered off the headphone before you put it into your pocket or bag.
6. Please charge the headphone one time at least each month.

### WARNING/DISPOSAL OF UNIT

Please do not attempt to change the battery yourself. If the battery has permanently died and you do not want to replace your battery, you should follow the disposal instructions below:

Never dispose of used batteries/electronics with ordinary solid wastes, since they contain toxic substances.

Always dispose of used batteries/electronics in accordance with the prevailing regulations that apply to the disposal of batteries/electronics. If there are no local regulations concerning battery/electronics disposal,

please dispose of the device in a waste bin for electronic devices.

### CAUTION

The battery used in this device may present a risk of fire, explosion or chemical burn if mistreated

Never use or charge the battery if it appears to be leaking, discolored, deformed, or in any way abnormal.

Never disassemble the unit or attempt to remove battery as that could cause leakage of alkaline solution or other electrolytic substance.

Always confirm that the temperature is 5°C – 50° C before you charge the battery.

Leakage or deterioration of the battery may occur if this warning is not heeded.

Never expose the battery to any liquid.

Never expose the battery to excessive heat such as direct sunlight or fire. Never use the battery pack in an unventilated vehicle where excessive internal temperatures may be encountered.

Always keep the battery out of the reach of infants and small children.

### IMPORTANT SAFETY INSTRUCTIONS

When used in the directed manner, this unit has been designed and manufactured to ensure your personal safety. However, improper use can result in potential electrical shock or fire hazards. Please read all safety and operating instructions carefully before installation and use, and keep these instructions handy for future reference. Take special note of all warnings listed in these instructions and on the unit.

1. Water and Moisture – The unit should not be used near water. For example: near a bathtub, washbowl, kitchen sink, laundry tub, swimming pool or in a wet basement.

2. Ventilation – The unit should be situated so that its location or position does not interfere with its proper ventilation. For example, it should not be situated on a bed, sofa, rug or similar surface that may block ventilation openings. Also, it should not be placed in a built-in installation, such as a bookcase or cabinet, which may impede the flow of air through the ventilation openings.

3. Heat – The unit should be situated away from heat sources such as radiators, heat registers, stoves or other appliances (including amplifiers) that produce heat.

4. Power Sources – The unit should be connected to a power supply only of the type described in the operating instructions or as marked on the appliance.

5. Power-Cable Protection – Power supply cables should be routed so that they are not likely to be walked on or pinched by items placed

upon or against them. It is always best to have a clear area from where the cable exits the unit to where it is plugged into an AC socket.

6. Cleaning – The unit should be cleaned only using a warm damp cloth. Do not use solvents, etc.

7. Objects and Liquid Entry – Care should be taken so that objects do not fall and liquids are not spilled into any openings or vents located on the product.

8. Attachments – Do not use attachments not recommended by the product manufacturer.

9. Overloading – Do not overload wall sockets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.

10. Damage Requiring Service – The unit should be serviced by qualified service personnel when:

A. the power supply cable or plug has been damaged.

B. objects have fallen into or liquid has been spilled into the enclosure. C. the unit has been exposed to rain.

D. the unit has been dropped or the enclosure damaged.

E. the unit exhibits a marked change in performance or does not operate normally.

12. Periods of Nonuse – If the unit is to be left unused for an extended period of time, such as a month

or longer, the power cable should be unplugged from the unit to prevent damage or corrosion.

13. Servicing – The user should not attempt to service the unit beyond those methods described in the user's operating instructions. Service methods not covered in the operating instructions should be referred to qualified service personnel.

**NOTE:** Any damage caused by physical impact, Water/Liquid, fire etc caused by customer or nature shall not be covered under warranty. Only product design, feature and functionality related faults will be considered.
