12. Pressure Unit Indicator
13. USB Output, Type-C Charging Port, DC Input Port
14. Air Hose Port
15. LED Light
- 16 & 17. Inflate & Deflate

Note: Continuous usage beyond 10 minutes is not recommended. Allow the device to cool down for at least 10 minutes before reuse.

Accessories

- Vayu AirPlus IN,
- Air Hose IN,
- Charging Cable IN,
- Power Cable IN
- Extending Nozzle with Attachments IN,
- Nozzles 3IN,
- User Manual IN

A. How to Inflate

Step 1

- Connect the air hose securely to the inflator and press the power button to wake up the display of the device.

Step 2

Attach the appropriate nozzle according to the item you want to inflate.

Step 3

Press the Mode Button to select:

- Car
- Motorcycle
- Bicycle
- Sport Balls
- Custom Mode

Step 4

Press and hold the Mode Button to switch pressure units:

- PSI
- BAR
- KPA
- kg/cm²

Step 5

Use the “+” and “–” buttons to set your desired pressure.

Step 6

Press Power Button to Start inflation. The inflator will automatically stop once the preset pressure is reached

B. High-Capacity Inflation / Deflation Mode

Suitable for:

- Air mattresses
- Inflatable boats
- Pool toys
- Large inflatables

Inflation

- Connect the high-capacity hose to the inflation port.
- Attach the required nozzle.
- Insert the nozzle into the inflatable item.
- Press the Mode button to select Inflation / Deflation mode.
- Press the Power Button to start Inflation

Deflation

- Connect the hose to the deflation port.
- Insert the nozzle into the inflatable item.
- Press the Mode button to select Inflation / Deflation mode.
- Press the Power Button to start Deflation

C. LED Light Function

Press the LED button to turn the built-in light ON or OFF for low-light or emergency usage.

D. Using as a Power Bank

Connect your device's charging cable to the USB output port of the Vayu AirPlus.

The inflator can charge devices such as:

- Smartphones
- Earbuds
- Smartwatches
- Small USB-powered gadgets
- Power Output: 5V–1A

Charging Instructions

- Connect the provided USB charging cable to the Type-C charging port of the Portronics Vayu AirPlus.
- Connect the other end of the cable to an adaptor.
- Use an 18W or higher adapter for faster and efficient charging.
- The battery indicator on the display will show the charging status.
- Once fully charged, disconnect the cable to preserve battery life.

Using the device in Corded Mode

If you want to operate the inflator in corded mode, connect the provided power cord to the DC port located on the front side of the inflator. Plug the other end into the 12V socket of your car to power the inflator directly. Ensure both ends are connected securely before operating the device.
