ZYRON

Wireless Charger

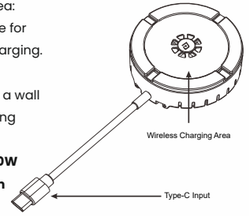

User Manual

Box Contents:

- Zyron Wireless Charger 1 N
- Universal Air Vent Clip 1 N
- Air Vent Clip Mount 1 N
- Phone Stand Mount 1 N
- User manual 1 N

Product Overview

- Wireless Charging Area: Place your phone here for magnetic wireless charging.
- Type-C Input Cable: Connect this cable to a wall charger or car charging adapter.
- **Please use at least 30W Adaptor for Optimum Performance**

How to Use as a Wireless Charger

- Connect the Type-C cable to a compatible wall charger.
- Once connected, the charger will enter standby mode.
- Place your Qi1/Qi2 compatible/magnetic wireless charging phone on the charging area.
- The phone will automatically start charging.

How to Use as a Phone Stand

- Take the phone stand mount.
- Slide and attach it to the back side of the wireless charger.
- After fixing it properly, place your phone on the charger.
- Use it as a phone stand while charging your phone wirelessly.

Quick Phone stand Installation

Set up in Minutes

Slide the charger onto the stand

Mount your phone magnetically

How to Set Up in a Car

- Take the universal air vent clip and air vent clip mount.
- Loosen the adjustment nut on the mount.
- Attach the mount to the air vent clip.
- Adjust the angle as per your need, then tighten the nut.
- Attach the wireless charger to the air vent mount as shown by the arrow marking.
- Fix the complete setup on your car AC air vent.
- Connect the Type-C cable to your car charging adapter.
- Place your phone on the wireless charger to start charging.
- For fast charging in the car, use a PD 3.0 car charger.

Quick Car Installation

Set up in Minutes, Enjoy a Secure Hold.

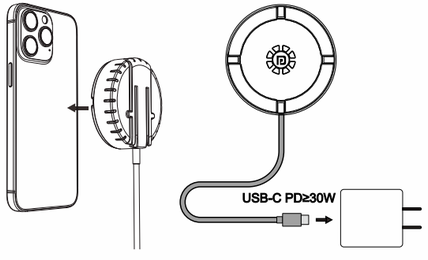

Fit the nut into the vent hook | Push the adjustor onto the ball joint | Tighten the nut to lock the adjustor in place

Slide the wireless charger onto the adjustor | Hook the mount securely onto your car's AC vent | Mount your phone magnetically

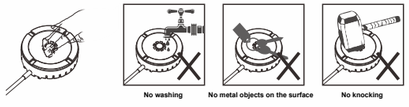

Charging Your iPhone

- Place your iPhone on the magnetic charging area.
- The charger will hold the phone magnetically and start wireless charging.
- Maximum output can go up to 25W, depending on phone and adapter compatibility.

Important Notes

- Use a phone case thinner than 4 mm for better wireless charging.
- Remove coins, pins, keys, cards, and other metal objects before charging.
- Do not place any metal object between the phone and charger.
- Do not use the product on an unstable or shaking surface.
- Do not install the product where it may block driving visibility.
- Keep the product away from water, moisture, and extreme heat.
- Make sure the phone is properly aligned with the wireless charging area.
- Do no charge near to any flammable substance.
